SUMMARY

A full stack javascript developer with **5 years experience** in developing real world business applications.

EXPERIENCE

Full Stack Developer | Freelancer – Fresno, CA – 2019 - PRESENT

Sales Team Tracker App: Designed a web application that tracks sales team performance. Allowing sales managers to view reports such as how long a salesperson is spending with each client, sales percentages, and information about customer foot traffic and appointments.

Frontend: React, CSS (containing application logic and design).

Backend: Node.js, Express.js (data validation and CRUD operations).

Database: MongoDB (storing stats such as customer traffic, and employee performance).

Web Developer | Own A Car – Fresno, CA – 2016 - 2019

Inventory Program: Developed an inventory tracking application that helped improve productivity of the dealership's weekly inventory checks by 50%. The application allows the user to scan VIN barcodes marking the vehicle accounted for at a specific location and removing that vehicle from the remaining list of vehicles that need to be scanned.

Frontend: JavaScript, HTML, CSS (displaying data, implementing validation, and attaching location information)

Backend: PHP (performing CRUD operations and validation)

Database: MySQL (stored car inventory data and locations).

Dealership Website: Designed dealership website that displayed cars and allowed customers to fill out sales forms.

Frontend: React, CSS (with page pagination, filters, and form validation).

Backend: PHP (to perform CRUD operations on the database).

Database: MySQL (stored car inventory data).

EDUCATION

Full Stack JavaScript Bootcamp

Treehouse Techdegree

Computer Science

Clovis Community College

SKILLS

MERN Stack

- MongoDB
- Express
- React
- Node.js

Frontend

- React
- TypeScript
- Next.js

Backend

- Node.js
- Express
- Rest API
- NPM
- PHP
- Python
- C++
- Java

Web Dev

- JavaScript
- HTML
- CSS
- JQuery

Databases & Cloud

- MongoDB
- SQL
- Sequelize
- Firebase

Version Control & IDE

- Git
- GitHub
- VScode
