Full Stack JavaScript Developer

A Full Stack JavaScript Developer with experience in developing real world applications, business management, customer service and sales. Looking to start a career developing application to assist and improve productivity in the daily lives of people and businesses.

Skills

TECHNOLOGIES				PERSONAL
JavaScript	Rest API	GIT	C++	Team Work
React	Sequelize	CSS	Python	Problem Solving
Node	SQL	HTML	Markdown	Creativity
Express	ORM	PUG		Eagerness to Learn

Projects

gt1990.github.io/projects

Full Stack App React Rest API

gt1990.github.io/projects/0

- Showcases my knowledge of developing full stack applications in JavaScript.
- Designed front end using React components.
- Constructed the back end Rest API using an express server, importing Sequelize utilizing relational database mapping, CRUD operations and using middleware for authentication.

Interactive Form

gt1990.github.io/projects/1

- Developed an interactive form that allows users to sign up for a conference.
- The form validates inputs in real time and displays error messages.
- Guides user through form and disables conflicts so user's can't sign up for two courses that are at the same time

Experience

Golling Chrysler Dodge Jeep Ram
Assistant Manager

2+ 2019-2021
